

**INSIGHT MINING  
ADVISORY**

# **CAPABILITY STATEMENT**

Dig Deeper. Advise Smarter.

## **Insight Mining Advisory**

*Helping you navigate compliance, risk, and strategy in a rapidly evolving global mining sector*

Boutique mining consulting firm, advising mining companies, financial institutions & investment entities

# EXECUTIVE SUMMARY

Insight Mining Advisory is a specialist consulting firm dedicated to supporting mining companies, financial institutions and investment entities with expert geological and technical services. We bring decades of hands-on experience, deep domain knowledge, and a commitment to excellence to help clients navigate complex challenges in resource development, reporting, and operational decision-making.

We specialize in turning technical data into strategic insights – enabling confident decision-making, improving project outcomes, and unlocking long-term value.”

**Our Mission:** To empower our clients through tailored consulting solutions that combine industry best practices with real-world expertise. We aim to build trust, deliver results, and support growth in the global mining sector.

**Our Approach:** We work closely with clients across the mining lifecycle – from early-stage exploration to advanced project evaluation and operational support. Our services are grounded in internationally recognized standards, delivered with a focus on precision, clarity, and compliance.

## SECTORS SERVED

MINING & EXPLORATION

PROFESSIONAL DEVELOPMENT

GEOLOGY ADVISORY

CORPORATE ADVISORY

## CORE COMPETENCIES

### Geology

- Mineral Resource Estimates for Technical Reports (NI 43-101, S-K 1300, SAMREC, JORC)
- Exploration Program Support
- Geological Database Design and Management
- Statistical and Geostatistical Assessment
- Geological Modelling
- Structural Interpretation and Modelling
- Grade Interpolation and Modelling
- Resource and Reserve Audits
- Operational Site Support

### Studies

- Technical Due Diligence Reviews
- Mineral Resource Estimates
- Technical Reports (NI 43-101, S-K 1300, SAMREC, JORC)

## DIFFERENTIATORS

- **Client-Centric:** We embed regular stakeholder consultation into every project, ensuring your specific objectives and considerations shape our tailored advisory solutions.
- **Outcome-Focussed:** We establish clear, measurable outcomes at the outset and deliver transparent progress reports.
- **Technically Rigorous:** Our workflows combine advanced geostatistical modelling, stringent Quality Assurance/Quality Control (QA/QC) protocols, and continuous peer review, guaranteeing robust, defensible results.
- **Deep Local and Global Expertise:** Drawing on hands-on local and global experience, we merge in-country know-how with international best practices to maximize project value.
- **Agile and Collaborative:** As a boutique firm, we offer direct access to our staff and tailor every engagement to client goals – without the red tape of larger firms.
